#### **Scanning Techniques**

- 1.Aim the scanner at the barcode
- 2.Press the trigger button to scan the barcode
- 3.Ensure trhe aiming dot is centered on the barcode.
- Note: Aiming point of GS-M500BT is blue rectangle, GS-M500BT-Pro is red dot.

#### **Product Outlook**

#### **Function Description**

Item	Name	Description
1	Scanning Window	Reading barcode ,Red light or Laser will beam out from this window
2	Buzzer Hole	The buzzer will sound when good decoded: (1) Connect USB cable, buzzer will beep"bb.b."; (2) Good decoed: Flashing green light and buzzer one time.
3	Trigger Button	Press the trigger button to scan the barcode one time,double click to hide and display soft keyboard in iOS device like iphone or iPad.
4	LEDs Indicator	LED has three color (Red,Green,Blue) which indicate with different scenario.Please reference the following table for detail description
5	Strap Hole	Fix strap into this hole

#### **Function Description**

Item	Name	Description
6	MicroUSB	Charge with Bluetooth barcode scanner with Micro-USB or connect PC with USB port.
7	Power Switch	Swith to left or right to power on the scanner of turn off the scanner.Please turn off the power to save power.
8	Buckle for Adapter	Use for buckle scanner with adapter

#### **LED Indicator Description**

Item	Status	Description
1	Green LED light flashing(with buzzer sound)	Decode success
2	Green LED light flashes continuously	Low battery alarm
3	Red LED light constant light	Charging
4	Red LED light turn off	Charging is complete
5	Red LED light flashes continuously	Built-in battery abnormal
6	Blue LED continuously flashing	Enter the Bluetooth pairing mode
7	Blue LED turn off	Bluetooth Pairing successful

#### Working with Mobile Phone Adapter

M series Bluetooth barcode scanner can fix on the mobile phone adapter. You can stick the adapter on the back of mobile phone's protective case with magic double side sticker.

So you can handhold the scanner with smartphone with one hand .

Please fix mobile phone adapter in th clip on the back of scanner, The steps is shown in the following figure:

#### **Bluetooth Ring Barcode Scanner Series**

#### GS-R1000BT Series, GS R1500BT-HW Quick Start Guide

#### Charging

Before using the Generalscan Bluetooth ring barcode companion which include GS-R1000BT, GS-R1500BT for the first time, please charge the battery using micro-USB cable until the red charging LEDs light is off. You can plug the USB-A cable into any PC USB port or Android smartphone charging adapter with 5V DC output.

Model	GS-R1000BT	GS-R1500BT
Interface	Micro-USB	Micro-USB
Charging Voltage	DC-5V 0.3A	DC-5V 0.5A
Battery Volume	280mAh	280mAh
Charging Time	3-5 hour	3-5 hour
Working Time(10s interval trigger with good decode)	12 hour	8hour

#### **Scanning Techniques**

Please aim at the middle of the barcode through the red light when scan the barcode.

Please scan properly in accordance with the following diagram, adjust the scanner angle and distance slowly, at the same time, press the trigger button, make the centre red light cover the left to right of the barcode.

Do not use the second image to scan barcode.

#### 18-1.Bluetooth Pairing Guide

When you use Generalscan Bluetooth barcode first time, the default data transfer interface is Bluetooth HID mode, You can connect Bluetooth barcode scanner with Android, iOS, Windows device.

For detailed instructions, please visit the following web site.

#### http://www.generalscan.com

The Generalscan Bluetooth barcode scanner have three transfer protocols, First is HID mode. Android, iOS and Windows support HID, You don't need install any software to use HID. You can scan barcode into the cursor position. Please scan the following barcode to switch HID mode:

#### 18-2.Bluetooth Pairing Guide

The second is SPP mode. This mode is wireless serial port mode, Android system support SPP mode, but iOS don't support this mode. When you connect Android system not successful in HID mode, please switch to SPP mode.

When you use SPP mode for Android platform, you should use the "Generalscan SDK Demo" or "Generalscan Keyboard-Pro" APP to read barcode from the SPP port. Scan the QR code below to download the APP from Google Play.

Generalscan SDK Demo

Generalscan Keyboard-Pro

#### 18-3.Bluetooth Pairing Guide

The third is BLE mode, This mode is a low-power protocol after BT4.0 specification. BLE mode Support Android and iOS.

Android uses "Generalscan Keyboard-Pro" APP to connect; iOS uses "BLE terminal" to connect.

Scan the QR code below to download the APP from Google Play.

Generalscan SDK Demo

Note: Apply for all Bluetooth barcode scanner with BLE

53

#### **19.Trouble Shooting**

Problem	Possible Solution
Laser or imager comes out from scan windows,but there is no any output from Bluetooth.	Ensure the scanner is programmed to read the type of barcode being scanned.
	Confirm the output mode is Bluetooth Output mode
	Move scanner closer to or further from the barcode
No Laser or Imager out from scan windows	Charge the battery with Micro-USB Port
	Push the power switch to ON

#### 20.Trouble Shooting

Problem	Possible Solution
iOS can not find the Bluetooth scanner	Scan the Pairing mode barcode
	Remove the paired scanner in the smartphone or tablet
Scanbuddy GS-X series plug into smartphone ,but can not work,No lighting comes from scan window	Confirm your device support OTG function and can provide at least 300mAh current to external scanner
	Confirm driver was install properly

#### 21.Regulatory Information

This guide applies to all Generalscan barcode scanner.

All Generalscan devices are designed to be compliant with rules and regulations in locations they are sold and will be labeled as required.

Any changes or modifications to Generalscan equipment, not expressly approved by Generalscan, could void the user's authority to operate the equipment.

#### CAUTION:

Only use Generalscan approved and UL Listed accessories, battery packs and battery chargers.

Do NOT attempt to charge damp/wet mobile computers or batteries. All components must be dry before connecting to anexternal power source.

Declared maximum operating temperature:40°C .

#### Bluetooth® Wireless Technology

This is an approved Bluetooth® product. For more information or to view End Product Listing, please visit https://www.bluetooth.org/tpg/listings.cfm

#### 22.Health and Safty Recommendations

#### **Ergonomic Recommendations**

Caution: In order to avoid or minimize the potential risk of ergonomic injury follow the recommendations below. Consult with your local Health&Safety Manager to ensure that you are adhering to your company's safety programs to prevent employee injury.

- Reduce or eliminate repetitive motion
- Maintain a natural position
- Reduce or eliminate excessive force
- · Keep objects that are used frequently within easy reach
- · Perform tasks at correct heights
- Reduce or eliminate vibration
- Reduce or eliminate direct pressure
- Provide adjustable workstations
- Provide adequate clearance
- · Provide a suitable working environment
- Improve work procedures.

#### 23.Laser Devices

For LED devices which have been evaluated to IEC 62471 and comply with the Exempt Risk Group, no product labeling requirements apply.

However, the following statement is required to comply with US and international regulations:

LED Compliance Statement: Classified as "EXEMPT RISK GROUP" according to IEC 62471:2006 and EN 62471:2008

#### 24.Batteries Ergonomic Recommendations

EPA (Environmental Protection Administration) requires dry battery producing or importing firms in accordance with Article 15 of the Waste Disposal Act are required to indicate the recycling marks on the batteries used in sales, giveaway or promotion. Contact a qualified Taiwanese recycler for proper battery disposal.

**CAUTION:** Risk of explosion if battery is replaced by an incorrect type. Dispose of batteries according to instructions.

Use only Generalscan apporved batteries.

#### 25.Battery Safety Guidelines

- The area in which the units are charged should be clear of debris and combustible materials or chemicals. Particular care should be taken where the device is charged in a non commercial environment.
- Follow battery usage, storage, and charging guidelines found in the user's guide.
- Improper battery use may result in a fire, explosion, or other hazard.
- To charge the mobile device battery, the battery and charger temperatures must be between +32 °F and +104 °F (0 °C and +40 °C).

• Do not use incompatible batteries and chargers. Use of anincompatible battery or charger may present a risk of fire,explosion, leakage, or other hazard. If you have any questions about the compatibility of a battery or a charger,contact the Global Customer Support Center.

 For devices that utilize a USB port as a charging source, thedevice shall only be connected to products that bear the USB-IF logo or have completed the USB-IF compliance program.

#### 26.Battery Safety Guidelines

- Do not disassemble or open, crush, bend or deform, puncture, or shred.
- Severe impact from dropping any battery-operated device on a hard surface could cause the battery to overheat.
- Do not short circuit a battery or allow metallic or conductive objects to contact the battery terminals.

• Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, or expose to fire, explosion, or other hazard.

- Do not leave or store the equipment in or near areas that might get very hot, such as in a parked vehicle or near a radiator or other heat source.
- Do not place battery into a microwave oven or dryer.
- Battery usage by children should be supervised.
- Please follow local regulations to promptly dispose of used rechargeable batteries.
- Do not dispose of batteries in fire.
- Seek medical advice immediately if a battery has been swallowed.

#### 27.Battery Safety Guidelines

• In the event of a battery leak, do not allow the liquid to come in contact with the skin or eyes. If contact has been made, wash the affected area with large amounts of water and seek medical advice.

• If you suspect damage to your equipment or battery, contact the Global Customer Support Center support to arrange forinspection.

#### 28.Service Information

If you have a problem using the equipment, contact your facility's technical or systems support.

If there is a problem with the equipment, they will contact the Generalscan

Global Customer Support Center at: http://www.generalscan.com/support For the latest version of this guide go to: http://www.generalscan.com/ support

#### 29.Warranty

For the complete Generalscan hardware product warranty statement, go to: http://www.generalscan.com/warranty.
